) BASIS

This matter comes before the Public Service Commission of South Carolina (the Commission) by way of an Application filed on March 1, 1991 on behalf of Phoenix Network, Inc. (Phoenix) requesting a Certificate of Public Convenience and Necessity to operate as a reseller of interLATA telecommunications services within the State of South Carolina. In its Application, Phoenix requested that the Commission consider the matter on an ex parte basis.

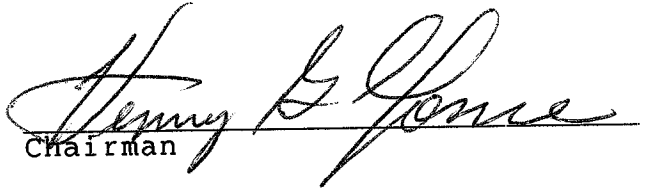

The Commission has considered the request of Phoenix and finds, however, that the request must be denied because the Commission does not have statutory authority to consider a case on an exparte basis. Therefore, the Commission will consider all positions in this case during the hearing which has been scheduled and noticed to the public.
